

OCCUPATIONAL SAFETY AND HEALTH POLICY

PENANG PORT SDN. BHD. aspire to attain the highest level of occupational safety and health performance by persistently upholding the following:

- Prevention of workplace injuries and health of our employees, customers, port users, visitors, stakeholders, general public and others who might be affected by our activities including the prevention of any damages or loss of properties, plants, and equipment;
- Endeavour for all time **"ZERO ACCIDENT"** target;
- Maintaining precise, justifiable and measurable occupational safety and health (OSH) objectives;
- Ensuring full compliance with all statutory laws, regulations, and requirements governing occupational safety and health;
- Diligently identifying and assessing the risk and formulating the right hierarchy of control to eliminate or systematically reduce the risk to a lowest reasonably practicable level.
- Embrace and educate all our employees on a systematical hazard identification, risk assessment and to empower them to communicate on safety and health matters;
- Continuously improve our occupational safety and health (OSH) standards by adopting best practices through the OSH management system.
- Promote active engagement of all our employees and stakeholders through relevant platforms and programs to ensure the policy remains relevant, appropriate and effective;
